

**EARN CASH BACK FOR
MAKING ENERGY-EFFICIENT
UPGRADES AT HOME.**

Clothes Washer
\$75

Freezer & Refrigerator
\$50 & \$100

Dishwasher
\$50

Film & Windows
up to \$200¹

A/C & Air-Source Heat Pump
\$100 - \$750²

Heat Pump Water Heater
\$300

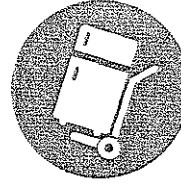

How to Apply

You may start a rebate application online at lge-ku.com/rebate or by calling **800-356-5467**.

A paper copy of your application and a postage-paid envelope will be mailed to the service address on your account. Complete, sign and return the application with your proof of purchase, which is a valid store receipt that includes the purchase date, model number and purchase information. Additional documentation is required for HVAC equipment and high-efficiency window products. See website for additional details and qualifications.

- 1 Solar heat gain must be less than or equal to 0.45 or the Shading Coefficient must be less than or equal to 0.5.
- 2 Split systems must have a Seasonal Energy Efficiency Ratio (SEER) rating greater than 14.5. Single-package systems must have a SEER rating greater than 14. Rebate is \$100 plus an additional \$100 for every SEER unit greater than the federal minimum high-efficiency standard. Labor costs not included. This program is available to LG&E and KU residential electric customers.

**IF IT WORKS, WE'LL
HAUL IT AWAY AND
GIVE YOU \$50 FOR IT.**

Fridge and Freezer Recycling Program

- Get \$50 per appliance (max. of 2 per year)
- Easy and convenient haul-away
- Proper recycling
- Save energy and money

Why Recycle?

According to ENERGY STAR®, refrigerators and freezers manufactured 30 to 40 years ago use nearly two times the amount of energy each year compared to today's high-efficient ENERGY STAR certified refrigerators. And, in one refrigerator alone, about 200 pounds of parts can be responsibly recycled to produce new materials, including steel, aluminum, and glass. So what are you waiting for? Ditch that old energy hog, start saving energy and earn \$50!

How it Works

To qualify, the refrigerator or freezer must be full-size (7.75 cubic feet or larger), operational, empty and accessible for removal. After you sign up, our recycling partner, ARCA, will make an appointment with you to have a trained team haul away the qualifying appliance. Weekday, evening, and Saturday appointments are available.

Sign up today at lge-ku.com/recycle or call **800-356-5467**.

This program is available to LG&E and KU residential electric customers.
